Why are mineral water springs from the Volcanic Eifel ideal for your brand?

- 💧 100% controlled springs
- 💧 originally from subterranean water resources up to 500 meters deep
- 💧 directly filled at source
- 💧 natural filtering through volcanic rock layers
- 💧 high natural mineralization for Near Water products
- 💧 non-carbonated, slightly carbonated and sparkling available

What advantages does the mineral water can offer you?

-  efficient and economical
-  99% recycling rate
-  high recognition value
-  unbreakable
-  rapidly cooled
-  convenient „to go“ packaging
-  100% reliable product quality
-  airtight and light protected
-  low transportation costs

Why should you fill your water brand at RHODIUS?

-  a family-run company since 1827
-  constant control through external institutions
-  state-of-the-art filling systems
-  know-how and expertise
-  full service
-  can sizes from 150 ml to 500 ml
-  wide selection of secondary packaging
