

BIRBA BISCUITS

NATURAL SINCE 1893

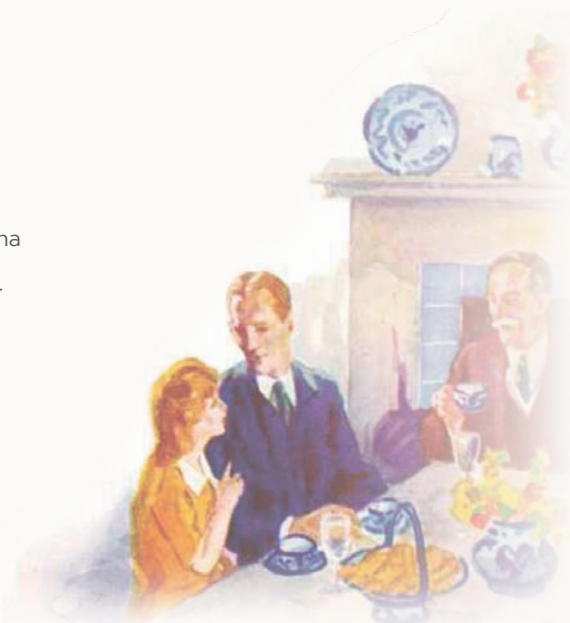

OUR ORIGINS

OVER 125 YEARS OF PRODUCING PREMIUM QUALITY NATURAL BISCUITS

Birba's history goes back to the 19th century and takes us to Camprodon in Girona province. Birba was established there in 1893, a small family business baking the highest quality biscuits. Since then, here at Birba we have continued to make our biscuits with the same enthusiasm and care as ever, following the traditional recipes of our master pastry chefs and always selecting the finest natural ingredients. And of course without artificial colouring, preservatives or palm oil. Just like before.

Birba, natural since 1893.

THE MOST NATURAL

NATURAL INGREDIENTS & HANDCRAFTED

Birba's secret is the combination of careful selection of ingredients with handcraft production. The ingredients are 100% NATURAL and of the highest quality: fresh eggs, real butter, olive oil, wheat flour, milk, almonds, hazelnuts, etc. Always WITHOUT PRESERVATIVES OR ARTIFICIAL COLOURING.

Our handcraft production process fully respects the features of the ingredients: we knead the dough in the traditional way and bake each biscuit slowly. Birba products are made since 1893 without palm oil or fat.

Our products are excellent not only in flavour but also in terms of nutrition.
