

WALNUT

Product from Spain

FINCA

La Noguera

Certified Company:

Nature is WISE

As a result of our family's dedication and appreciation for the countryside, Claranuts is born. It is a pleasure to be able to specify the experience of many years, respect for the surroundings and the environment, roots for the land and innovation in the agricultural world, in a comprehensive business project around a fruit as magical as the walnut.

Times are changing, and healthy, complete, natural and upcoming products are increasingly present in our lives. La Noguera lives this reality and is committed to quality, bringing the walnut in different formats and products. It has not been easy to get here.

We have been working the land for more than 100 years, with respect and humility, but with firmness and innovation, seeking quality in everything we do, and especially in the products we offer you.

Marc Ferran
CEO

Walnuts *from Spain*

CHANDLER

Large and smooth; it has an oval shape and a wellsealed shell. Known all over the world. Very appreciated by buyers for its very light colored and high quality fruits.

HOWARD

Large, rounded, smooth, very sealed and harvested in the middle of the season. Known for the light color of its skin and for its attractive natural appearance, it presents a large, clear fruit and an excellent flavor.

SERR

The result of "Payne" and "Pi 15968", oval and smooth, with a beautiful light natural color. 90-95% light product is obtained. Medium hard shell, superior to the médium/large caliber Chandler.

ECO Walnut

Produced without the use of chemical fertilizers, pesticides, or other artificial chemicals. It is ECO. We manage two varieties: handler from Spain (Chandler and Howard). Both are certificated ECO.

Caliber:

- 28-30
- 30-32
- 32-34
- 34-36

Walnuts *from Spain*

WHERE WE ARE

Local Product

Located in the Ebro basin, with producing farms in Lleida and Huesca.

Area that meets the best climatic conditions in Europe for cultivation:

- Cold necessary in winter.
- Low precipitations that allow a better health of the production.
- Water from the Pyrenees of excellent quality and in sufficient quantity to supply the crop.
- Deep soil.
- Possibility of planting the best varieties available.
