

DNZ-Deniz  
Dis Tic. Ltd. Sti.

Bringing more flavour to your food since 1987

# Our Founder

## Necdet Ceyhun Deniz

Necdet Ceyhun Deniz was born in the Nizip district of Gaziantep in 1956. He was the second youngest son of a farmer family with 35,000 acres of cultivated land.

Being born into a farmer family, he learned how to till the land, manage production, and grow quality crops from an early age. His upbringing influenced his education and contributed to his professional life.

### Education:

Gazi Institute for Education – Chemistry, Physics, Biology  
-1975- upper secondary education

FH- Dortmund Mechanical Engineering  
-1979- bachelor's degree

Bochum Ruhr University  
- 1985 – environmental pollution master's degree

# About DNZ

---

## Our vision

---

To produce the best quality products without damaging the environment, through using renewable energy.

## Our mission

---

We offer best quality products for best prices.

## Our values

---

We are experienced, respectful, young and energetic.  
We believe in long term relations.  
We respect the environment.  
We respect people.  
We love what we do.

## DNZ-DENİZ

Our first business was founded in 1987, under the name “DENİZ TARIM ÜRÜNLERİ TİC VE SAN AŞ”, in the Nizip district of Gaziantep, on a 12,500 m2 area. Deniz Tarım, giving importance to institutionalization and professionalism in process management, continued to make new breakthroughs in the sector by blending its respect for people and nature.

Deniz Tarım, which worked on food and textiles until 1999, ended its textile business in 1996 and focused entirely on the food sector and started working in this field. While carefully processing what nature gives, Deniz Tarım has followed its values and meticulous approach to work.

Our Manisa factory, DNZ DENİZ DIS TIC, which was the second production facility in 2015, was established on a 12,000 m2 area. Our Manisa factory provides us with advantages both in terms of logistics and quality due to its proximity to raw materials. Equipped with high technology, trained and well-equipped management staff and employees with expert processing knowledge, process management is carried out in the most efficient way.

# PRODUCTION FACILITIES

- 2 Factories
- Total 24.500m2 Closed Space in Total
- 4.500 m2 Production Space
- 20.000 m2 Storage Space

## Our Certificates

# SOCIAL AWARENESS

- **BSCI & SEDEX**

- We have the BSCI certificate and SEDEX compliance.
- We are aware of our responsibility towards the environment and the society.

- **The Global FoodBanking Network**

- We are collaborating with an official member of GFBN, Tider
- To combat food waste, we donate regularly.

- **We are supporting Organic**

- We have the organic product processing certificate.
- We support growing organic produce and we think that the soil is more fertile without any chemicals

- **We produce our own energy**

- We established our 1 megawatt solar power plant
- We produce our own energy from a renewable source

- **Our zero waste system**

- Our biological waste is sent to a biomass power plant.
- We recycle all our recyclable waste.

Our water waste is reused thanks to the wastewater facility in our industry area.

To prevent food waste and donate food to the Tider association.
