

box, tray & giraffe

Our Story

"if we can pack a giraffe into a box or tray, we could pack anything..."

*Haim Schwartz & Eran Yaron
Founders of the company*

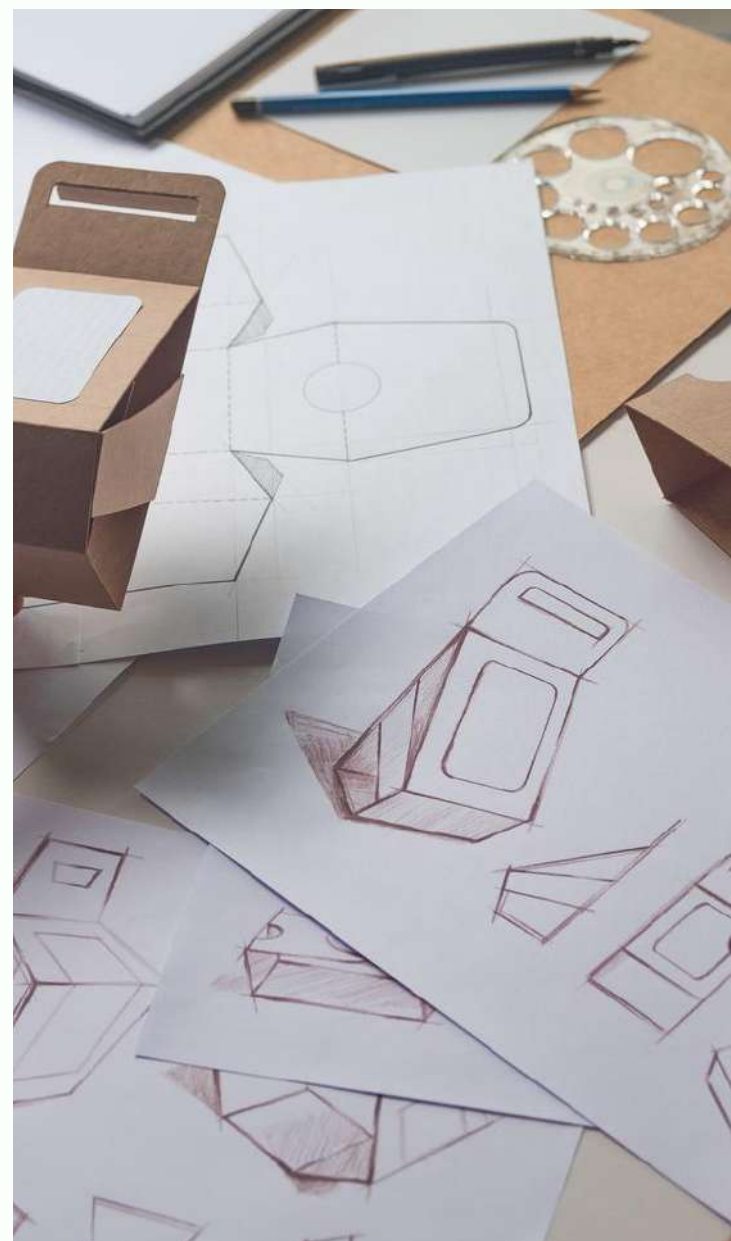

Design Innovation Value

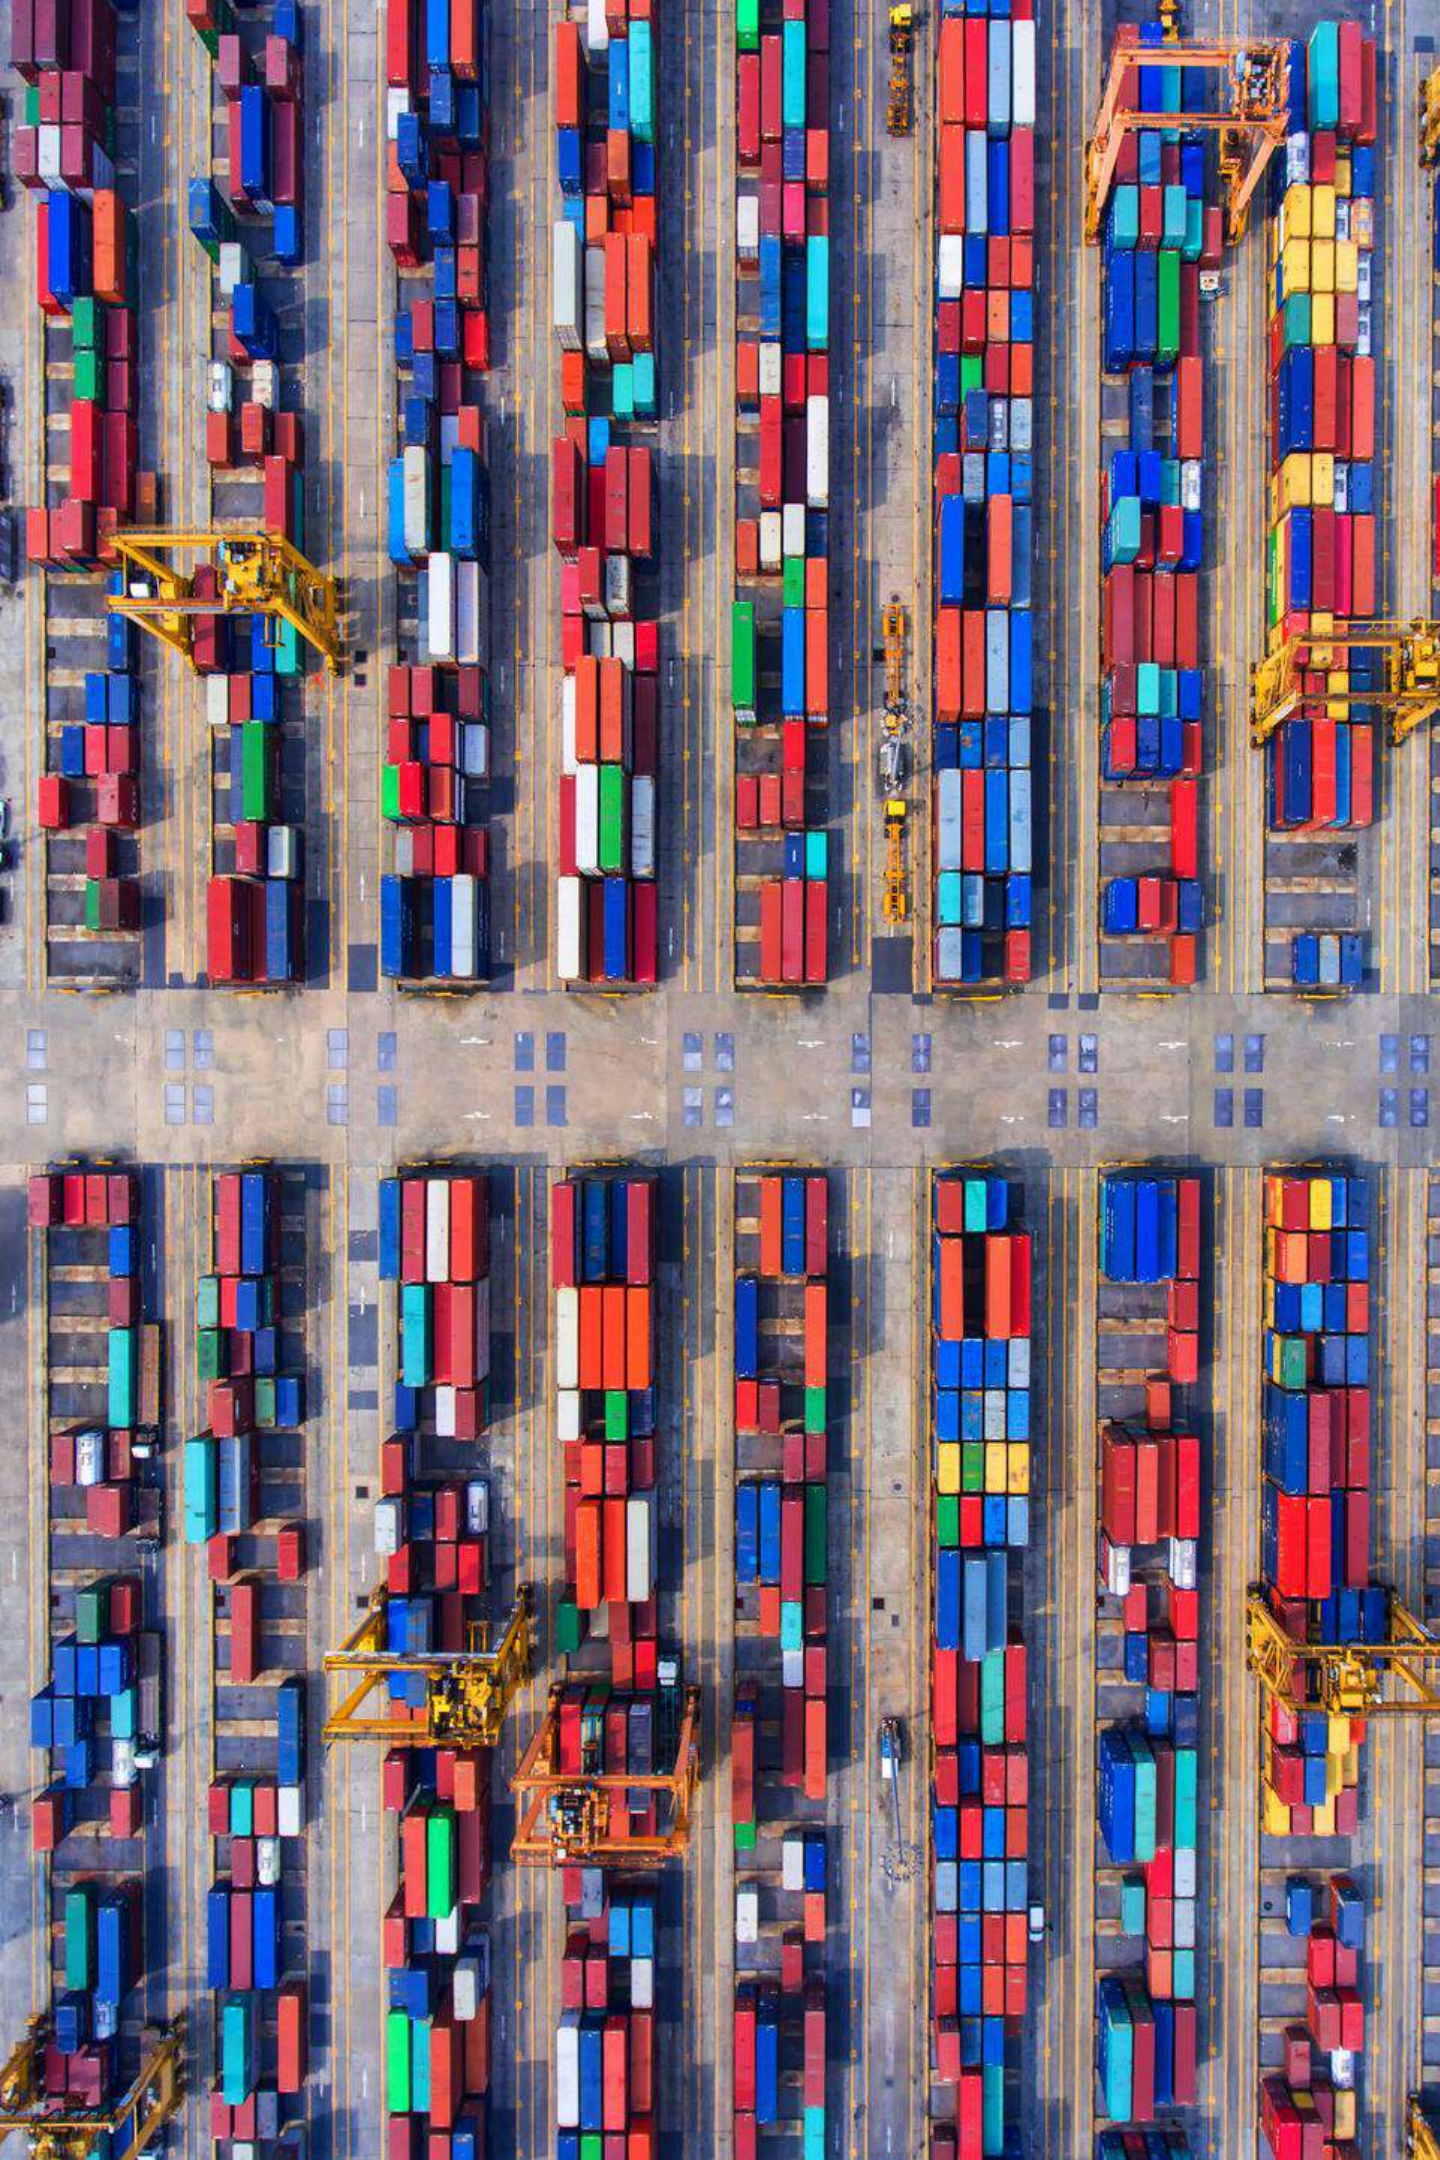

Founded in 2004, we are specialized in the design, development, and manufacturing of seasonal food (and non-food) gift products. Being the only large scale international group company in this industry, we have had the honor of working with major retailers and distributors in more than 30 countries in the world. By operating vertically, we take pride in our capability of providing comprehensive and yet flexible services to our customers. From concept development to final product delivery, whether it is private label or contract manufacturing projects, we are your one-stop solution.

Our in-house design team is dedicated to generating the most forward gifting trends and converting them into actual engineered product solutions. We provide a vast collection of own ideas that can be customized as needed, or we work with our customers to co-develop the products under their specific guidance.

Concept design & product development

Global sourcing and supply-chain management

We source around the globe and strive to bring the raw materials/product components from their best possible origins. We also work with designated suppliers of our customers in some cases. We believe in integrated management of suppliers and logistic partners who are the keys to ensure our product quality and on-time delivery.

Private label and contract manufacturing

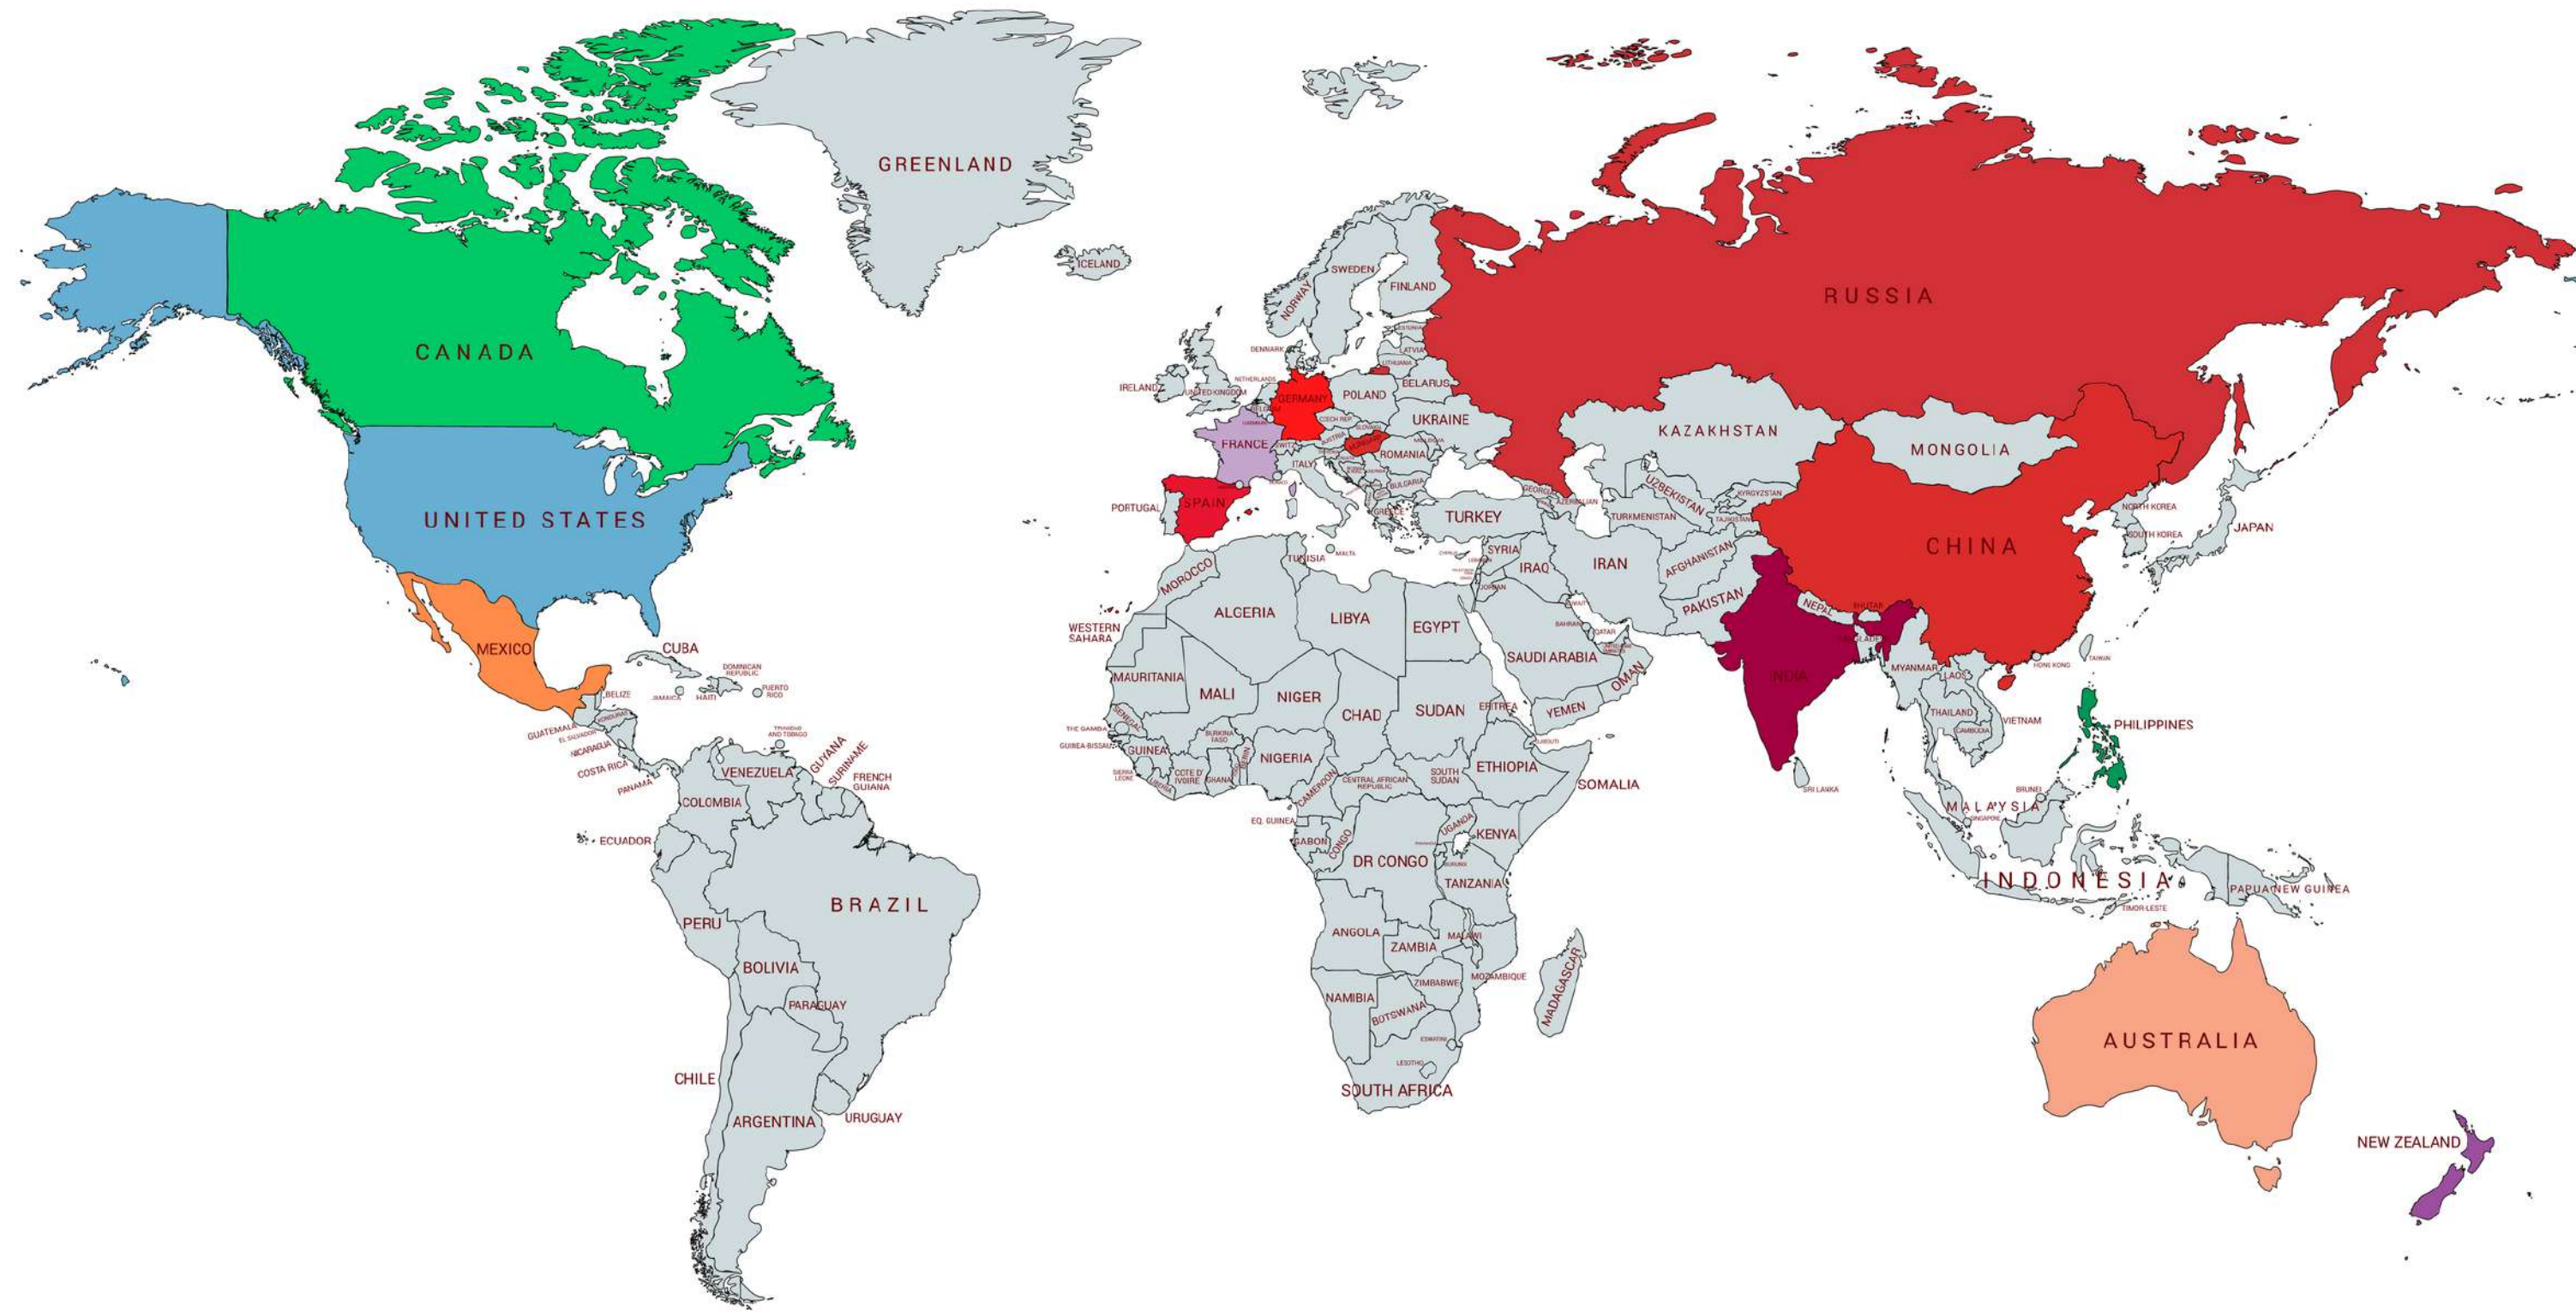

More than 80% of our business comes from private label projects where we co-create values with our customers and take full responsibility throughout the concept-to-product process. We also take on contract manufacturing projects and act as the execution arm of our customers. Either way, we understand the products delivered by us convey the images of our customers. Therefore, we conduct our business in a socially responsible way and constantly look to improve our practice.

Our Facility

Qingdao Blue Gate Food Co., Ltd. is our wholly-owned manufacturing facility with a wide range of food handling license. It is a total of 25,000 square meters in size consisting of temperature and humidity-controlled workshops, wet and dry food filling and blending lines, showroom, and large warehouse space. Apart from customer inspections and audits on a regular basis, we are also BRC, SEDEX / SMETA, WCA, and BSCI certified..
