

THE DISTILLERY WAVE DISTIL

HISTORY

Thierry Van Renterghem is the Master Cellar and distiller of the distillery and the founding father of the spirits. After starting his career in football, studying art history, spending a long time in Cognac and many beautiful encounters and varied professional experiences, he decided to launch in 2010 a 100% natural fruity vodka made from fruit, he will call it *Cosmik Apéritif!* At the same time, he launched a pure vodka, which he had used to create the Apéritif. He did not expect such a success, the *Pure Diamond vodka* very quickly won several medals at international competitions. Aware of his know-how and with the desire to create other spirits, he quickly developed a complete range of spirits in only seven years (aperitif, vodka, gin, whisky and rum).

In 2016, he fitted out a cellar in which he stored exceptional barrels from France, Italy, Spain, USA, Portugal and Scotland. In 2018, Benoît Bertholet joined him in the Wave Distil adventure and took over the management of the company. In 2019, the distillery releases the first W.01 finish of the Rare Cask Edition of August 17th single malt whisky. In early 2020, Wave Distil moves to the beautiful town of Dinant known for its copper and saxophone and renovates an old farmhouse into a real distillery!

THE DISTILLERY

Wave Distil produce spirits of Excellence from noble ingredients and following an ancestral artisanal method! The distillery has two magnificent copper stills (a swan neck still and a Charentais pot still), a fermentation room and more than 1500 exceptional barrels spread across two finishing cellars and an ageing cellar. Distillation, bottling and labelling are done on site.

A COMPLETE RANGE OF PREMIUM SPIRITS

All the products are elaborated by the Master Cellar and distiller Thierry Van Renterghem. He creates fine and delicate products offering the best combination of tastes that sublimate the spirit. Six spirits have already won medals in international competitions, a nice recognition at the international level.

- *Cosmik Apéritif*: a 100% natural aperitif, ready-to-drink. Blood orange of Delicate lemon.
- *Cosmik Vodka*: vodka from Beauce wheat. A very pure, soft and balanced vodka (7 medals).
- *Gemblue Gin*: a double distilled gin with juniper berries, lime and cucumber. A unique flavorful and very aromatic gin (6 medals).
- *August 17th*: an atypical Single Malt whisky with subtle smoky notes. Aged in barrels during 3 years, 5 years, 7 years or 10 years (4 medals).
- *August 17th Rare cask Edition*: August 17th is finished in different cask. A very limited edition of exceptional finishes (Monbazillac, Banyuls, Marsala, Olorosso, Sauternes, Laphroaig, etc).
- *Manneke'Tiche*: a Pure Malt Whisky, the result of the mixture of two single malt.
- *Little G rum*: a typical agricultural rum with an aromatic vanilla note and a long finish.
- *Ginneke'Tiche*: a London dry gin made with juniper berries and lime zest. A 100% natural gin (1 medal).

With the quality of its products, its know-how and its exceptional whisky Rare Cask Edition, the distillery has become in a few years a reference in the spirits world in Belgium and abroad.

THE TASTE OF EXCELLENCE
