

News:

At this year's ANUGA, Nungesser will exclusively promote its new brand **East Forest Kenari Nuts**. The Kenari Nut is Indonesian best-kept secret nut. This spring (2023), together with our Indonesian partner Kawanasi, we received the EU Novel Food approval and are now launching the product placement for the European market. Kenari Nuts grow only on fertile volcanic soils in Indonesia. The Nuts are harvested by hand in close cooperation with the local population. East Forest Kenari Nuts have a unique creamy taste and tender texture. They also contain rich nutrients such as iron, magnesium, manganese, and essential fatty acids. Kenari Nut is 100% organic, nutritious, sustainable and has many valuable ingredients. We offer the Kenari Nut in four different flavors: unsalted, sea salt, spicy salted caramel & cocoa cinnamon. We are proud to have won the award for Best New Product in the category grocery products, snacks and sweets at BIOFACH 2023.

FOOD SINCE 1775

Information about Nungesser

Nungesser is a leading sourcing and distribution company of various ingredients, raw materials and additives for the food and feed industry in Switzerland, Europe & Africa. The group has its headquarters in Switzerland and other subsidiaries in Belgium, Germany, and Poland.

Nungesser specializes in the sustainable sourcing of organic seeds, organic pulses, and organic nuts as well as other specialties directly from the country of origin and represents in part exclusively various manufacturers and producers. Through its procurement expertise, Nungesser focuses on contract security, transparency, value for money, on-time delivery, sustainability, and social commitment. With these strengths, Nungesser supplies the bakery and muesli industries, the chocolate industry, oil producers and, to some extent, food retailers. In addition, Nungesser distributes exclusive snacks in Europe.
