**WE CREATE HEALTHY HABITS**

## ¡HELLO!

---

We are EntreNuts: a highly specialised company who sells and manufactures healthy and gluten-free foods.

Our products are elaborated by ourselves following the most demanding quality, traceability, and social responsibility standards. We began our journey 2 years ago, which makes us a very young company with a staff average age of 25 years old. Our headquarters are located in the city of Colón, province of Entre Ríos, by the Uruguay River, in Argentina.

A solid customer service mindset is how we live by, for which we are always looking to seed and grow strategic alliances that help us to effectively develop business markets by reinforcing our approach with nutrient-rich and gluten-free products.

### PEANUT BUTTERS

**Natural:** As you can guess, is the most natural peanut butter, made of 100% roastead-peanuts and with a taste that is easily adaptable to include in your everyday meals.

**Crunchy:** Our classic natural peanut butter with a special addition of peanut chunks. Great to butter your bread all over!

**Coconut:** This flavour is achieved by merging our classic natural peanut butter with dried shredded coconut and natural coconut extract, giving it an exceptional texture and taste.

**Cocoa:** Bittersweet flavour made up by adding Duch-process cocoa and organic Stevia powder sweetener.

**Stevia:** Our classic natural peanut butter, sweetened with organic Stevia powder. Excellent for those who are fond of sweetened options.

**Spicy:** Classic natural peanut butter seasoned with pepper and blended with liquid smoke. Just something different.

**Super Seed Mix:** A selection of 9 different seeds incorporated to our classic natural peanut butter (including: flax seeds; sunflower seeds; chia seeds; white, brown and black sesame seeds; amaranth grains; poppy seeds; and pumpkin seeds).

**Smooth:** Classic natural peanut butter seasoned with sea salt

**Salted-crunchy:** Our classic crunchy peanut butter seasoned with sea salt.

**We also specialize in the development of peanut butter private label projects.**
