

\*Kiremko, Leading Potato Processing Solutions Provider Excites at Anuga FoodTec 2024\*

Montfoort, 03-01-2024 – Kiremko, a loyal participant at the renowned Anuga FoodTec fair in Cologne, is thrilled to announce its presence once again at this prestigious event. As a well-respected exhibitor, Kiremko has been a consistent and trusted face at Anuga FoodTec for several years.

### **Showcasing Excellence in Potato Processing**

Renowned as the market leader in the production of product lines for the potato processing industry, Kiremko is set to showcase its cutting-edge and sustainable systems at the upcoming Anuga FoodTec fair. We take pride in being the only company globally capable of delivering comprehensive turnkey potato processing lines, encompassing the finest machines and ensuring the highest quality end-products.

### **Global Partnership for Unparalleled Results**

In collaboration with our esteemed partner, Idaho Steel, we consistently achieve unparalleled results in every stage of the potato processing journey. Whether it's steam peeling, cutting, drying, forming or frying, or any other process, Kiremko and Idaho Steel together provide solutions that set the industry standard for fried, flaked, formed and fresh potato products.

### **Clientele Across Continents- Testimony to Excellence**

Our extensive installed base around the world stands testament to our commitment to excellence. At Anuga FoodTec 2024, visitors will once again have the opportunity to explore our product lines, machinery, and processes. We invite attendees to experience firsthand the best steam peeler, hydro cutter, dryer and fryer in the world.

### **Dive into Sustainability and Innovation**

Kiremko takes pride in not only offering the finest machinery but also in our dedication to sustainable processes. Our "Less is More" principle is ingrained in our ethos, where a reduction of water and energy usage, the prevention of waste, and the optimization of efficiency contribute to our clients' success and pave the way for an honest and fair future. Our team will be delighted to share insights into our methodologies, showcase our environmentally friendly practices, and explain why we consistently deliver the best results for our clients.

### **Building the Future Together**

This edition of Anuga FoodTec is an invitation to dive into the world of Kiremko, where innovation meets efficiency, and excellence is a tradition. Our team is eager to engage with visitors, providing detailed information on our offerings and demonstrating how, together, we can build your future of success.

### **Strategic Partnership at Anuga FoodTec 2024**

Join us at Anuga FoodTec 2024 at *stand 10.1 F 20/G 21*, where Kiremko is not just a participant – we are your strategic partner in potato processing solutions. **Together, we build your future.**
