

ATS Products & Food Technologies Group makes debut at Anuga FoodTec

ATS Products and Food Technology (ATS PFT), an operating group of ATS Corporation (NYSE:ATS), is thrilled to announce its first-time participation at the upcoming Anuga FoodTec tradeshow. This marks a significant milestone for the ATS PFT group collectively showcasing three of its leading companies CFT, Raytec-Vision, and MARCO Ltd. in the global arena of food & beverage processing and packaging technologies.

Unleashing expertise and innovation

The ATS Products & Food Technology group of companies focus on manufacturing automation & conveyance for applications involving fresh food processing, beverage and beer processing, optical sorting & x-ray inspection, end-of-line robotics and packaging, and fresh produce & ready-to-eat meals packing efficiency.

With a long heritage of customer success across its companies and brands that include CFT, Comac, Raytec, NCC Automated Systems, SuperTrak Conveyance, Marco Ltd., SIAPI, and Glide-Line — ATS PFT is uniquely positioned to serve the entire spectrum of food processing and packaging needs.

As part of ATS Corporation, additional value-added services including software from PA Solutions that optimize production performance to expert consultancy on process optimization and life-cycle management through BLSG and Triad Unlimited, ATS's decentralized portfolio provides access to business improving offerings well-beyond the primary products and systems their companies provide.

Join Us at Anuga FoodTec
