

# Lagafors Mobile Cleaning Unit, LWP M II

now with integrated hose reel.

**Lagafors LWP-M II, is an easy-to-move and easy-to-use all-in-one solution for your cleaning needs.**

LWP-M II 2030 is a true "all-in-one" solution. This cleaning system is comprised of a low-pressure pump that delivers 30 l/min at 20–25 bar pressure or 25 l/min at 40 bar, a compressor, a chemical solution dosing injector and a cleaning hose, with or without hose reel. This unit can distribute up to two different chemical solutions (applied as foam or clear fluid), as well as pressurized water.

## **Unique ergonomics**

All of the LWP-M II components are assembled on a stable and user-friendly cart that follows Lagafors' philosophy of hygienic design. The cart also features exceptional ergonomic characteristics such as low weight and a low centre of gravity. Movement of the cart is also facilitated by its wheels, which conform to the food-processing industry's requirements.

The LWP-M II are primarily intended for smaller industrial facilities, but are also a perfect solution for larger facilities with specific area-cleaning requirements.

## **Easy to use and efficient**

Using the LWP-M II is as easy as moving the cart to the required location, connecting the electricity and water supplies and then cleaning. When finished, the unit can be moved to the next location in your facilities. When you are finished cleaning, you can easily roll the cart into a storage room to free up precious production space.

## **Facts & benefits:**

- Flexible
- Compact "all-in-one" unit
- 25 bar or 40 bar- water pressure
- Integrated hose reel
- Suitable for cleaning in smaller production facilities
