

## AMETEK MOCON Exhibits at Anuga FoodTec 2024 with Rejuvenated Dansensor Product Line

### February 2024

AMETEK® MOCON®, a global leader in innovative solutions for the testing of food packaging is proud to announce its participation in Anuga FoodTec 2024 in Cologne, Germany, from March 19 to 22, 2024. During Anuga FoodTec, the company will unveil its updated range of market-leading products from its esteemed Dansensor® product line, showcasing new and improved analyzers for food packaging testing at **Hall 8, Stand B90**.

As leaders in the field of package integrity testing, AMETEK MOCON specializes in ensuring the quality and safety of food products through meticulous examination of packaging. At Anuga FoodTec, the company will spotlight its expertise in Modified Atmosphere Packaging (MAP), a critical aspect of preserving food freshness and extending shelf life.

Visitors to the exhibition can anticipate an exclusive preview of newly released versions of renowned products, such as the highly anticipated Dansensor CheckMate 4 benchtop headspace MAP gas analyzer. This latest iteration promises enhanced features and functionalities, reinforcing AMETEK MOCON's commitment to delivering cutting-edge solutions that meet evolving industry needs.

"We are thrilled to present our latest innovations in food packaging testing at Anuga FoodTec 2024," remarked Dorthe Oldrup, Global Product Manager at AMETEK MOCON. "Our Dansensor product line continues to set industry standards, and this event provides an exceptional platform to showcase our dedication to advancing package testing technology."

AMETEK MOCON's participation at Anuga FoodTec aligns with its mission to provide comprehensive solutions that ensure the integrity and safety of packaged food products. Through continuous innovation and unwavering commitment to excellence, the company remains at the forefront of the packaging testing industry.

## About Dansensor

Dansensor is a product brand of AMETEK MOCON. The Dansensor package testing products are used for quality assurance and quality control of packages that are protected with a controlled gas composition, such as modified atmosphere packaging (MAP).

We use our expertise in gas analysis to produce instruments that enable our customers to test package integrity, seal strength, headspace gases, and leaks accurately and precisely.

Our products stand out as the premium performance leaders, setting the standard for quality and reliable measurement of gases. Our instruments are used in laboratory R&D, process monitoring and quality control on, at, and off the packaging line.

## About AMETEK MOCON

AMETEK MOCON is a leading provider of analyzers, instruments, sensors and consulting services to research laboratories, production facilities, and quality control departments in the food and beverage, medical, pharmaceutical, and packaging industries worldwide.

AMETEK MOCON is a business unit of the Process & Analytical Instruments division of AMETEK, Inc., a leading global provider of industrial technology solutions serving a diverse set of attractive niche markets with annual sales over \$7.0 billion.
