

Located in Lužani, Croatia, ERGO was founded in 1973. ERGO has earned its reputation as one of the leading manufacturers and exporters of quality staples in the region.

ERGO manufactures all kinds of wire staples compatible with a wide range of pneumatic tools, electric, and manual tools on the international craft and DIY markets.

ERGO specializes in fine wire staples, medium wire staples, heavy wire staples and brad nails.

ERGO will continue its efforts to intensify the development and production of quality staples that will always meet and exceed our customers expectations.
