

## **Vibac Group Introduces "V GREEN": A Sustainable Packaging Solution with 30% Recycled PP Content**

Vibac Group, a prominent provider of cutting-edge adhesive solutions, proudly presents its latest product, the **Acrylic adhesive tape "V GREEN"**. This innovative **packaging solution incorporates a BOPP film containing 30% by weight of recycled polypropylene (PP) sourced from external suppliers.**

### **Key Features and Benefits:**

**Exceptional Durability:** "V GREEN" **maintains the durability characteristic** of our standard acrylic tape. Ideal for sealing, it withstands various temperature conditions. Its durability ensures that your packages remain intact, providing reliable protection during transit and storage.

### **Eco-Conscious Composition:**

As a leading provider of innovative adhesive solutions, Vibac Group prioritizes environmental responsibility. "V GREEN" features a BOPP film containing 30% by weight of recycled polypropylene (PP) from external sources. This eco-conscious composition not only **reduces plastic waste** but also **promotes the efficient reuse of resources.**

### **Committed to Sustainability:**

Vibac's **environmental self-declaration (ISO 14021:2016)** on V GREEN's backing **is verified by a third party**, confirming our sustainability commitment!

At Vibac Group, our commitment to sustainability extends beyond product design. We **actively invest in research and development** to enhance our eco-friendly offerings.

### **Promoting the Circular Economy:**

By choosing "V GREEN", you actively contribute to the **circular economy**. The **incorporation of recycled PP encourages recycling initiatives**, fostering a sustainable approach to plastics usage. Join us in **minimizing environmental impact.**

### **Collaborative Partnerships:**

We believe in **collaborative partnerships** that drive positive change. By choosing "V GREEN" **you align your brand with a responsible choice** and inspire others to follow suit. Together, we can create a more **sustainable packaging industry.**

**Make the Switch to "V GREEN"!** By incorporating recycled materials, Vibac Group continues its commitment to sustainability and environmental responsibility. "V GREEN" offers exceptional performance while reducing the environmental impact. This innovative product showcases our dedication to developing sustainable solutions without compromising quality or functionality.
