

## **Egebant Introduces Cutting-Edge Protection with the Egebant SanCut 191732 Cut Resistant Glove**

**Turkey, February 2024** - Egebant, a leading manufacturer of work gloves in Turkey, is proud to unveil its latest innovation, the Egebant SanCut 191732 Cut Resistant Glove. This revolutionary product is designed to provide unparalleled protection and comfort for professionals working in various industries.

The Egebant SanCut 191732 is constructed with a polyurethane coating on an ultra-thin and high gauge HPPE lining, reinforced with stainless steel. This unique combination results in a glove that not only delivers exceptional cut resistance but also ensures durability and flexibility. The glove has undergone rigorous testing, including the TDM 100 ISO 13997 test, where it achieved a level B rating.

One of the standout features of the SanCut 191732 is its high-grip micro foam PU coating. This innovative design not only enhances the cut-resistant properties of the glove but also makes it significantly easier to hold and manipulate various parts compared to bare-handed work. This level of dexterity is a game-changer for professionals in fields such as general handling, working with metal parts, production lines, metal plate manipulation, sheet metal work, and plastic assembly applications.

### **Key Features of the Egebant SanCut 191732 Cut Resistant Glove:**

Liner Material: Steel Fiber, HPPE, Polyester

Liner Colour: Blue & White Melange

Coating: Polyurethane (PU)

Wrist Type: Knit Wrist

Design: ½ Black PU coated melange liner and knit wrist cuff

Thickness: 0.70 mm

Marking: Transfer Printing

The sleek design of the glove, combined with its superior protective qualities, makes it a must-have for professionals seeking a reliable and comfortable solution for their hand protection needs.

"At Egebant, we are committed to delivering cutting-edge solutions that prioritize both safety and comfort. The Egebant SanCut 191732 Cut Resistant Glove is a testament to our dedication to innovation and excellence in hand protection," said Ibrahim Hatipoglu, CEO at Egebant.
