

PRESS RELEASE

BORMANN PRO

Built to last.

BORMANN PRO is today one of the fastest growing business ready to conquer the world. Offering a wide range of value for money power and battery tools, aims to provide the pleasure of using a fine power tool for the enthusiasts all over the world.

The tools' robustness and extended lifetime are essential; everyday work is made easier and more efficient while being safe. All power tools' superb performance is greatly enhanced with suitable accessories that can add further speed, comfort and more uses to suit the needs of every professional.

The Power Tool Accessories line is also available featuring a wide range of accessories. Specifically, 1000 new codes of top-quality disks, SDS and cobalt drills, chisels, screwdriver bits, diamond saw blades, wire brushes, reciprocating saw blades and jigsaws.

Our quality control team is constantly working to improve Design, Functionality and Durability of all BORMANN PRO products. This way we ensure our products quality and minimize any potential flaws. All our tools meet the applicable Regulations and Standards with reliable products as a result. We always believed that a satisfied user is the best advertisement for our tools performance and endurance.

Here at **BORMANN PRO** we are not only offering the right tools, but we also provide the Service for them. It has always been very important for us to invest in after sales service. Our technical team is continually improving their skills through frequent trainings, so that they can achieve a high level of experience in the servicing process.

Our philosophy is to provide the best possible tool for the money paid. BORMANN PRO provides tools with top performance level at the right price. This is the reason we are rapidly developing and acquiring higher market shares every year in all countries we are present.

We at **BORMANN PRO** are not waiting...we create the business today, by heavily investing in marketing and quality for all our products.
