

RONIX 2726 ROTARY HAMMER

BREAKING BOUNDARIES, DRIVING PROGRESS

RONIX PROUDLY PRESENTS ANOTHER MEMBER OF ITS TOPLINE SERIES AT THE EISENWARENMESSE: THE RONIX 2726 ROTARY HAMMER. WITH ITS EXTREMELY POWERFUL 850W MOTOR AND IMPACT ENERGY OF 3.5J, THIS EXCEPTIONAL ROTARY HAMMER DRILL IS READY TO TACKLE CHALLENGES FROM DRILLING, HAMMER DRILLING, AND CHISELING HARD WORKPIECES.

Tough Jobs Made Easy

The motor of the Ronix 2726 rotary hammer is designed for high performance under heavy-duty applications, allowing for simple drilling of less dense materials, hammer drilling for tougher workpieces, and chiseling for demolition. Additionally, the rotary hammer features a releasing function, enabling users to adjust the working angle for enhanced flexibility in demolition projects.

Durable, Dynamic, Dependable

To maximize durability and strength, the Ronix 2726 rotary hammer features a die-cast aluminum housing for superior heat dissipation. Despite its powerful performance, the tool remains lightweight at just 3kg. The exclusive Ronix-designed auxiliary handle, which can rotate 360 degrees and is anti-shock, reduces vibration during drilling or chiseling.

The advertisement features a central image of the Ronix 2726 rotary hammer against a red background. The tool is blue and black with a red auxiliary handle. Callout lines point to specific features: 'One-touch sliding chuck for easy chisel changing' at the front, '3 function gearbox' on the side, and 'Anti-vibration 360° auxiliary handle' at the bottom. The Ronix logo and 'Premium Quality' are at the top left. Below the tool, the model number '2726 Rotary Hammer' is displayed. At the bottom left, a row of icons represents power (850w), voltage (220-240v), torque (3.5J), frequency (50-60Hz), weight (3Kg), and speed (0-1200RPM). At the bottom right, icons indicate 'PROFESSIONAL SERIES', '3 Function', 'SDS plus', and 'BMC'.

Drill Deep, Drill Strong

The Ronix 2726 is equipped with an SDS-plus bit holder capable of holding drill bits up to 26mm in diameter and flat or pointed chisels. The tool-free and automatic bit holder allows for faster changing of drill bits and chisels, enabling users to drill holes up to 30mm in wood, 13mm in steel, and 26mm in concrete.

Empowering Construction with Safety at its Core

Recognizing the potential risks associated with rotary hammers, the Ronix 2726 Rotary Hammer Drill is equipped with a built-in safety torque clutch system that protects the tool from breakage, ensuring user safety.

Experience Innovation at Eisenwarenmesse 2024

RONIX is pleased to offer an exclusive **15% discount on all purchases** made at Eisenwarenmesse 2024. Don't miss this opportunity to save on top-tier tools. Join Ronix at **Eisenwarenmesse 2024 - Hall 10.1, Stand C-090-B-090** to explore the Ronix 2726 Rotary Hammer along with thousands of other excellent products.

RONIX STORY:

CRAFTING EXCELLENCE

SINCE 2004

Ronix stands as a reliable manufacturer renowned for delivering an extensive range of top-tier tools and spare parts at affordable prices, while maintaining the quality. Supported by a well-equipped 30,000m² warehouse, we ensure swift order processing and shipment within 15 days. Our approach to Minimum Order Quantities (M.O.Q) is flexible, and, in addition, our clients benefit from free-of-charge advertising services. Crafted and produced in-house by the Ronix Branding Agency, these services are aimed to increase our clients' revenue to unprecedented heights.
