

# RONIX 3110 MINI ANGLE GRINDER

## VERSATILE POWER FOR PRECISION WORK

**RONIX PROUDLY PRESENTS ANOTHER MEMBER OF ITS POWER TOOL LINEUP AT THE EISENWARENMESSE: THE RONIX 3110 MINI ANGLE GRINDER. DESIGNED TO DELIVER EXCEPTIONAL CUTTING, GRINDING, AND SHARPENING PERFORMANCE, THIS VERSATILE TOOL IS A GAME-CHANGER FOR PROFESSIONALS AND DIY ENTHUSIASTS ALIKE.**

### **One Tool, Endless Solutions**

With this mini grinding tool, the possibilities are endless. From cutting iron tubing to carving wood and even removing grout between tiles, this powerful tool does it all. Equipped with interchangeable spinning discs for cutting and grinding, users can easily switch between applications to tackle any task with ease.

### **Unparalleled Performance**

A heavy-duty 880W motor with up to 11000 no-load RPM is industrially engineered inside the Ronix 3110 Mini Angle Grinder's body to transfer the desired power to the disc. This tool is built with high-quality

gears, shafts, and anti-dust ball bearings produced from the finest materials and alloys to enhance durability and efficiency.

This power tool works with a 220-240V and 50-60Hz power source. The high-purity copper coil and collector enable the motor to reach 880W power. The protective and fully-coated strings protect the rotor's winding coil and reduce the motor's wear and tear.

The 115mm diameter cutting wheel provides a safety guard. The Ronix 3110 Mini Angle Grinder is built to rapidly alter the wheel guard's position, allowing you to set the guard while working in various conditions.

#### **Ergonomic Design for Enhanced Comfort**

3110 is intended ergonomically to reduce fatigue and give more practical applications, particularly when a portable angle grinder must be held. This 2.2kg mini angle grinder has an auxiliary Ronix-design handle for low fatigue and more effective applications.

This mini angle grinder is uniquely designed with a direct airflow system to prevent dust and sparks get inside the motor and help with the motor's cooling.
