

40 Years of Excellence: HaurYueh Unveils Latest Hand Tool Series at International Hardware Fair Cologne

We are proud to announce that HaurYueh will showcase our latest series of hand tools at the International Hardware Fair Cologne. This exhibition is the culmination of 40 years of solid technical expertise and years of international exhibition experience, demonstrating our outstanding achievements to the world.

Exhibition: International Hardware Fair Cologne (IHF)

Date: 2024/03/03 ~ 2024/03/06

Location: Cologne, Germany

Booth Number: Hall 4.2 B085

Haur Yueh established in 1976. Within the latest 40 years HaurYueh has evolved a great deal as a business but has kept its original vision of excellence. We have been committed to continuous innovation and improvement in technology. This exhibition provides an excellent opportunity for us to showcase our rich experience and excellent craftsmanship in manufacturing high-quality hand tools.

HaurYueh's flagship ratchets stand as a gleam of excellent craftsmanship. The luminous physical structure expresses meticulous polishing and splendid matte finishing, integrated with a flexible holding grip along with HaurYueh's signature triple linear incisions striking around its cylindrical nature.

The HaurYueh hand tool series not only inherits tradition but also injects modern innovation to meet the demands of international customers. Each tool represents our commitment to quality and is a testament to why we are loved by customers abroad.

We look forward to your presence, sharing the exciting moments of this journey through tools together!
