

HaurYueh - A One-stop tools manufacturing supplier with perfect Source, Quality and On time Delivery

HaurYueh, is a trusted manufacturing company committed to delivering high-quality tools that can last a lifetime. Our eventful manufacturing journey began 40 years ago In the heart of Taiwan, the most industrialized neighbourhood "Taichung".

We started in the manufacturing of the intricate automotive engine parts, and over the years, HaurYueh grew and expanded into the handtools supplying market. HaurYueh's commitment is based not only on the creation of quality products but also and above all on a solid base of corporate structure that enables a smooth production flow and constant company growth.

At the upcoming International Hardware Fair in Cologne this March, HaurYueh is excited to exhibit our flagship ratchet wrench which are Powerful, Reliable, Durable and 100% made in Taiwan. We want to provide users worldwide with a better and easier experience while showcasing HaurYueh's quality and capabilities to manufacturers and customers around the globe.

When you place an order with HaurYueh, we take care of absolutely everything for you. Our program depth and breadth position us to offer a single supplying solution; this includes industrial manufacturing, product sourcing, quality control, and exporting documents, all strategically managed by our highly experienced and results-driven team.

HaurYueh will be showcasing its latest hand tools at the booth in the International Hardware Fair Cologne. Audiences from all corners of the world are welcomed to personally experience the outstanding quality and performance of HaurYueh hand tools.
