Marzipan Rosen Foto Arrangement

There is love in the air at our trade fair stand: the new rustic design with lots of wood spreads warmth and comfort and is reminiscent of the beautiful Odenwald, the home of our exquisite fine marzipan.

To make your heart soar even more, we have brought a very special highlight: a romantic archway lined with countless handmade marzipan roses. This fairytale backdrop invites you to take incomparable souvenir photos, which can also be used perfectly as part of a personal Valentine's Day gift.

However, as we know that you cannot live on air and love alone, we of course have a huge selection of our incomparable marzipan products with us, with which you can not only win the hearts of your loved ones, but also give yourself an enjoyable treat. Come by and fall in love with our delicious range.
