

Founded by two Swedish women who love thoughtful gifts

Gåva (pronounced gaw-vah) means ‘gift’. It was founded by Swedish natives Jessica Dahlin & Linda Nordlund and born out of a desire to bring the Scandinavian art of mindful gifting outside the Nordic borders.

A Gåva ([gaw-vah] *n gift*) can be valuable without being expensive - as long as it's chosen with care and beautifully presented. Trust the Scandis to take everything back to design, hey? But it works. Even the simplest homemade treat feels like a luxury gift when it's wrapped up beautifully.

Easter Äggs & Christmas Baubles by Gåva are reusable and you fill them with what you like. These unique gifts in Swedish designs are the perfect gift!

What is a Swedish Easter Ägg?

Just like Christmas stockings, elaborately painted Easter Äggs are brought out and refilled year after year. But Easter Äggs, unlike their British counterparts, aren't all about chocolate. They're designed to hold all sorts of surprises, from jewellery and makeup to baked treats and luxurious chocolates - even holidays (if you've got a voucher).

New for 2024

The Julkula ([yul-koula] *n Christmas Bauble*) Collection

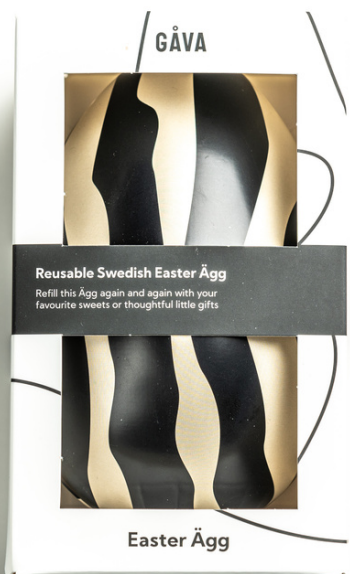

Christmas Baubles by Gåva are the reusable baubles you fill with what you like. Measuring 8cm each and made out of durable tin, these unique gifts in Swedish designs can be filled with almost anything. Choose from a set of one, two or three and either fill them yourself or buy them complete with the most delicious chocolate truffles from boutique chocolatiers Wow Chocloao.

Enjoy your Gåva gifts!
