

myEphelia
for moms and babies

myEphelia Introduces the 4in1 Bonding Top: A Versatile Garment for Pregnancy and Postpartum

myEphelia presents the innovative 4in1 Bonding Top at the Kind & Jugend trade fair. This multifunctional garment, made from certified Lenzing™ Micro Modal, offers optimal comfort and skin-friendliness for both mother and baby.

four functions in one Top

Our 4in1 Bonding Top simplifies daily life during and after pregnancy with four practical applications:

1. Shirt Extension: : Serves as a practical extension of existing clothing during pregnancy.

2. Belly Band: . Provides support and comfort for the growing baby bump.

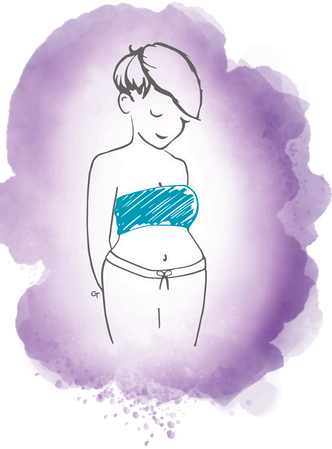

3. Bonding Top for the postpartum period:

Supports the closeness between parents and baby and promotes healing after birth.

4. Nursing Bandeau:

Offers comfort and protection for sensitive breasts, especially at night, replacing the nursing bra.

The value of Bonding

The bonding between mother and child is supported and promoted by the 4in1 Bonding Top. Studies show that it strengthens the bond, boosts the baby's immune system and can facilitate breastfeeding.

The benefits of the Bonding Bath

A bonding bath elevates bonding to a higher level and supports mothers and babies after a challenging birth, promoting recovery, relaxation, and the bond between mother and child.

Durable and thoughtfully designed

The 4in1 Bonding Top is durable and gentle on the skin, making it ideal for a variety of body shapes.

Midwifery Expertise as a Foundation

Based on decades of midwifery expertise, developed for the well-being of mother and child.
