

welcome happy home 25

In our Happy Home 25 collection, we welcome three new Deer friends into the family. Dotti, Pigeer, and Sheepy. These adorable characters are eager to introduce you to their cute and playful world of products.

Like the new Tiny farm friends, little ones love exploring the world and all its wonders. Done by Deer provides educational toys and helpful tools that guide children through different stages of childhood, teaching them new skills along the way.

Discover a colorful, playful, and down-to-earth theme that wanders across all categories in our Happy home 25 collection - from practical dinnerware and fun, stimulating new toys to cosy textiles and much more.
