

C20 & AIS 5.5: Revolutionizing Dental Practice with the Ease of a Video Game!

Imagine if intraoral imaging were as intuitive as playing a video game.

With the new **C20 Full HD intraoral camera**, equipped with AIS 5.5 software, ACTEON® provides practitioners with an effortlessly simple solution to modernize their practice.

A Small Device That Packs a Punch

In this playful analogy, the **C20** is the controller, and AIS 5.5 is the game, featuring a powerful combination of cutting-edge technologies:

- Full HD Resolution – Captures every detail for confident diagnostics.
- Bright Halo Illumination – Ensures clear visibility, even in the darkest areas.
- Fog Light Technology – Prevents interruptions by eliminating lens fogging.
- Exclusive Automatic Flipping – Keeps image orientation effortless, so practitioners stay focused.
- AIS 5.5 Imaging Software – Features a modern, intuitive interface with automated tasks such as report generation and patient record archiving, allowing practitioners to focus on patient care.

Seamlessly integrating with existing systems, the **C20** is compatible with TWAIN, Windows, and Mac, ensuring a smooth workflow without disruptions.

Immediate Adoption for All Practitioners

Drawing from decades of collaboration with dental professionals, ACTEON® has engineered the **C20** to be ergonomic and lightweight, making it easy to use for the entire dental team.

With crystal-clear visuals, patient consultations become more engaging, fostering trust and improving communication. Moreover, the **C20** delivers exceptional value for money, making advanced imaging technology accessible to all dental professionals.

French Expertise, Recognized Worldwide

As a pioneer in intraoral camera technology since the 1990s, ACTEON® has a long-standing legacy of innovation with flagship products such as Soprocare and, most recently, the C50. Leveraging its optical expertise, ACTEON® continues to push the boundaries of dental imaging.

ACTEON® also supports practitioners through the Acteon Club, a dedicated online hub where users can access educational content, share success stories, and connect with a global community of dental professionals. This platform underscores our commitment to delivering exceptional service and support.

Ready to Play?

ACTEON Group

The ACTEON® Group, is a French company and a major player in the dental and medical industries, that can look back on more than 75 years of success serving healthcare professionals and their patients with leading brands such as Pierre Rolland, Satelec®, Sopro®, de Götzen and Prodont Holliger.

The keys to the early successes have been in combining the strengths of the Group's three core technology platforms: X-Ray and Optical Imaging Systems, Specialized Treatment Equipment and Instruments, and Pharmaceuticals and Specialized Consumables into solutions that improve our customer's workflows for the most common indications. By reinforcing the benefits of combining ACTEON® solutions for diagnosis, planning, treatment, and follow-up, care providers can achieve improvements in the overall treatment outcome of more than one hundred million patients each year treated with our solutions.

The Group is being brought to life by more than 800 dedicated and passionate colleagues around the world, and is built on three key philosophies:

- Being a human centric organization focused on the needs of patients and care providers,
- Providing tailored workflow solutions that maximize the total effectiveness, efficiency, and economics of achieving desired clinical outcomes,
- Providing innovative and integrated healthcare solutions that address the continuous healthcare needs over patients' lifetimes.

ACTEON®
