

Owning **WOW** series, Your Play's a **WOW**.

*Though small, accomplishes big.
Pocket size pliers, grip bigger.*

JAW CAPACITY
30mm-50mm

Technical Large Curved Jaw Design

Large curved jaw with serrated teeth allows to grip bigger round material, like nut, bolt, hex, round stick, tube, etc. without slipping.

Lock automatically without jaw adjusting

The patented mechanism locking system allows the pliers to be able to self-adjust the jaw's opening. So the automatic locking grip can provide a strong grip on your working pieces automatically without adjusting the wideness of the jaw.

Pressure setting

The knurling tension screw can easily set desired clamp pressure from slight to extreme depending on your needs.

Simply turn clockwise to increase the gripping pressure and turn counterclockwise to decrease.
