DIAMANT-93 LTD

We are a family-owned Bulgarian company founded in the year 1996. For more than 25 years, the company has managed to establish itself as one of the largest confectionery manufacturers in Bulgaria with sales in Europe and the Middle East. Our success is a result of continuous research and original ideas, as well as our policy to be open and flexible in developing, producing and providing high quality products to our beloved customers.

Currently we have our own factory, where we produce using the latest European technologies our main products - Cocoa Coated Honey Cake and Linzer Cake Bars with different fillings under our own brand "Desire" distinguished by its unique taste, great softness and joyful packaging.

We have recently released our brand new product - "Honeyz". It is a new type of Honey cake that is made only from natural honey with no added sugar and no palm oil.

Except for offering our own brand, we are always open to Private Label Manufacturing.
