

On an adventure with Trixie's new animal friends

- » New animal friends Mr. Triceratops, Mr. Bear, Mrs. Butterfly, Mr. Dragon
- » New: snack box
- » Bread box and Thermal lunch bag now also available in Mrs. Unicorn, Mr. Shark and Mr. Triceratops

There is room for fantasy in every place and every moment. The new Trixie animal friends Mrs. Butterfly, Mr. Dragon, Mr. Bear and Mr. Triceratops are ready to make every adventure just that little bit more magical. Because playing and exploring makes you hungry, Trixie is also introducing a range of cheerful snack boxes, perfect for on the go.

New friends, extra fun

The Trixie family gains four new animal friends. Mr. Triceratops, Mr. Bear, Mrs. Butterfly and Mr. Dragon make their appearance in the 'Colourful Companions' collection. They each have their own character and playful energy. With their familiar, cheerful Trixie look and soft colours, they fit in perfectly with the other animal friends. Mr. Triceratops takes children to the age of mighty dinosaurs, while Mr. Bear leads them through the deep woods. Mrs. Butterfly happily flutters around and Mr. Dragon stands ready to protect any castle with your little one. These four play partners are available as large and small drinking bottles and as a backpack, ideal as a practical companion on the go.

Snack time!

No adventure is complete without a tasty break. With the new snack boxes of the familiar Trixie animals, taking snacks with you becomes even easier. The snack box with clip comes in two sizes and has a sturdy, fixed lid that little hands can open effortlessly. The three-piece snack box set offers even more storage options, with three handy sizes and flexible lids. So three times more space for energy food! Both sets are BPA-free, food-safe and dishwasher safe. Their light and sturdy design makes them ideal for travelling. Plus, they help reduce disposable packaging. Did you know that you can eliminate 180 to 360 throwaway packages per child by bringing a reusable snack box to school? That way, every bite contributes to a more sustainable future.
