

Snuggle Shield® Featured on FOX 5 & KTLA: Innovation with Impact

Snuggle Shield®, the patented multi-use air-filtering infant cover, was recently featured on FOX 5 and KTLA as a top innovation in infant safety, wellness, and travel.

Created by a nurse and mom, it combines a 4-layer medical-grade filter, UV-blocking OEKO-TEX® bamboo, and a color-changing heat sensor that helps parents prevent overheating.

Snuggle Shield® has also donated over 1,300 covers to wildfire victims through Baby2Baby and the American Red Cross, reinforcing its mission to protect babies in every environment.

Available at Target, Nordstrom, Babylist, and coming soon to Walmart, the brand is now looking for international partners at Kind + Jugend.

As Seen on FOX 5 & KTLA — Built by a Nurse. Trusted by Parents
