

Popular children's scooter available in new colors

The Highwaykick 1 Push & Go scooter from Scoot & Ride has quickly won the hearts of parents and children alike. Now, this market leader is being expanded with the addition of the trendy color "Mocha." The muted brown tone offers an interesting alternative to ash and is suitable for both girls and boys. Helmets in sizes XXS-S and S-M are also available in perfectly matching colors. The "Highwaykick 1 Push & Go" impresses with its 2-in-1 function, height-adjustable seat, and 3-way height-adjustable parent push bar. Footrests that can be attached to the footboard provide children with extra comfort. The scooter in its new color will be presented at the Kind & Jugend trade fair in Cologne (Hall 10.1, Booth B-040).
