

## Momcozy brings innovation with connected breast pump Mobile Flow™ M9

App connectivity provides effective and convenient support for breastfeeding mothers

After, August 2025 – Following the success of its predecessor, the M6, which won an award at the Made for Mums Awards, the Momcozy brand continues its journey of innovation with the launch of the new connected and wireless breast pump Mobile Flow™ M9 – an even more powerful and intelligent device. Designed for active mothers who value comfort and efficiency, the M9 provides a particularly smooth, discreet and effective pumping experience – supported by its connection to the Momcozy app. Mobile Flow™ M9 marks the beginning of a new chapter in the development of modern breast pumps. For more information, visit [www.momcozy.com](http://www.momcozy.com)

### Connectivity and personalised tracking in the Momcozy app

The **Mobile Flow™ M9** builds on the existing product line, but adds a key new feature: **app connectivity**. The **Momcozy app** gives mothers access to a range of helpful functions:

- **Remote control:** The pump can be operated discreetly via smartphone – without attracting attention.
- **Individual settings:** Parameters can be changed with a single click – for individual, comfortable and effective use.
- **Milk volume tracking:** Each session can be documented to track progress and keep an accurate record.
- **Notifications & reminders:** Personal alarms help you remember pumping sessions and react quickly to changes.

### Intelligent pumping system – adapts to the needs of every mother

The Mobile Flow™ M9 is powerful yet exceptionally quiet. Its **third-generation motor** generates a **suction force of up to -300 mmHg**. Compared to the proven M6 model, the M9 offers further improved, intelligent pumping technology that makes pumping noticeably more comfortable. Mothers can choose from **15 intensity levels** in 3 **modes: stimulation, expression and mixed** – allowing the pump to be individually adapted to the situation and personal preferences. With a **noise level of only 46 dB**, the M9 remains pleasantly quiet and integrates effortlessly into everyday life. The integrated battery offers **150 minutes of runtime**, ideal for multiple sessions a day – even on the go.

## Maximum comfort and hygienic design

Like the M6 model, the M9 is equipped with the **DoubleFit™ flange attachment**. Made from **food-safe liquid silicone**, the attachment ensures an optimal fit and high wearing comfort – without any pressure points or pain. The milk flow is guided so that the breast milk ends up **exclusively in the hygienically protected collection container** – no risk of contamination.

## Winner of the Mother & Baby Awards 2025

The **Mobile Flow™ M9** was named *Best Breast Pump* at the **Mother & Baby Awards 2025**. As the top product in the Momcozy range, the M9 underlines the brand's vision of making life significantly easier for breastfeeding mothers through technical innovation.

## Product tests and samples

Are you a journalist and a breastfeeding mother? Please contact us for a product test – we look forward to your feedback on the Momcozy Mobile Style™ M6.

## About Momcozy:

According to a 2024 survey by market research institute Grand View Research, Momcozy is the world's number one brand for hands-free breast pumps. Momcozy makes it easier for babies to be fed naturally with breast milk – with well-designed everyday aids that combine state-of-the-art technology and comfort. The company also offers other innovative and tasteful products that accompany mothers and babies from pregnancy through the postpartum period and into their first

years together. The well-being of mother and child and practical everyday support are at the forefront of everything we do. Millions of mothers worldwide trust Momcozy products, which are available through the official online shop and in stores. For more information, visit [www.momcozy.com](http://www.momcozy.com).
