

## **FTNF Waterphases and Flavors – 100% Natural for Innovative Applications**

Discover our high-quality **FTNF restauration flavors**, made exclusively from the named fruit. These **highly concentrated, standardized** fruit juice flavors are ideal for use in beverages, food products, and food design. Our portfolio primarily includes citrus varieties such as orange, grapefruit, lime and lemon, but also features a wide range of other fruits like pineapple, apple, and strawberries. Choose from our diverse standard offerings or work with our team to develop a customized flavor perfectly suited to your needs. FTNF flavors are available in both drums and pails.

Our **FTNF waterphases** are typically **150-fold concentrated**, and we offer them depending on harvest and availability, from A like Apple to Z like Zucchini. Besides waterphases of various fruits, vegetable waterphases are also available upon request. We deliver in drums as well as in tank trucks and containers.

In addition to our conventional range, we offer a selection of organic-certified flavors and waterphases. In general, all FTNF products are 100% natural and suitable for the organic sector.

Visit us at the trade fair and discover how our natural flavors can enhance your product development!
