CM
CM FOOD

Chimei Frozen Food Co., Ltd. (CMF) was founded in 1971 and is one of the affiliated enterprises of the Chimei Group. CMF was primarily focused on the exportation of frozen vegetables and fruits, as well as frozen prepared eel during the early days.

In 1990, Mr. Richard Soong was appointed as the President of CMF, leading the Company to actively **transform into a professional manufacturer of frozen prepared foods**; with the persistence in the belief of **"popularizing traditional delicacies"**, it has successfully **entered the domestic frozen prepared food market with its "Pork Bun" and "Da Shao Bao"**, as well as attained close partnerships with various major convenience stores across Taiwan."

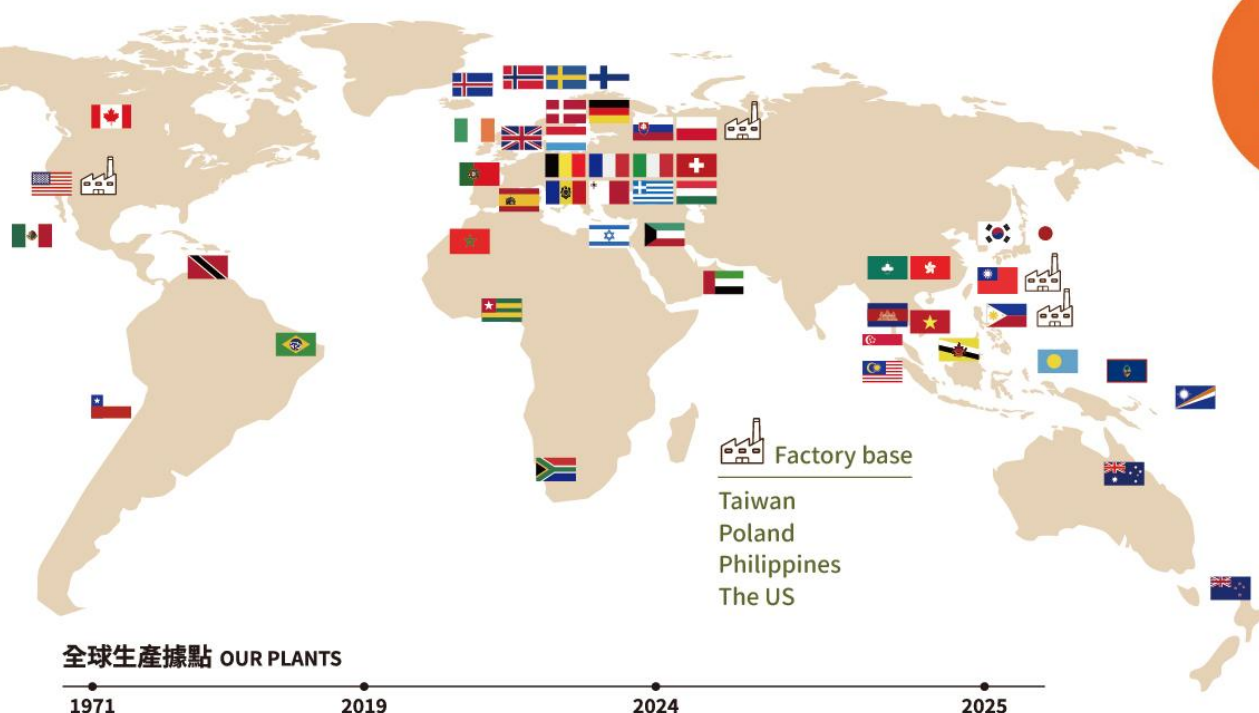

A Leading Benchmark in the Domestic Frozen Prepared Food Industry

The R&D team further developed the “Chimei Pre-Cooked Dumplings” and pioneered the establishment of **the first fully automated pre-cooked dumpling production line in Taiwan.**

Based on the strong commitment and persistence towards food hygiene and safety, CMF not only became the first food manufacturer in Taiwan to receive GMP certification, but is also the first manufacturer in Taiwan to be approved by Japan’s Ministry of Agriculture, Forestry and Fisheries for exporting processed meat products to Japan, making it a leading benchmark in the domestic frozen prepared food industry.

03 FACTORY IN POLAND

In 2024, Chimei Foods established a factory in Łódź, Poland, marking the company's first major production site in Europe and a significant milestone for selling meat-containing products in the European market.

In collaboration with **SuperDrob**, a leading Polish poultry supplier, CMF produces frozen gyoza and other noodle-based products to expand its market reach with its daily output of **1 million cooked gyoza** .

Currently, four varieties of **Asian-style pork and chicken gyoza** have been developed. These products require only simple preparation, allowing European consumers to easily enjoy **authentic Asian gyoza** locally.
