PLAN PROJECTION-
LOOKING TOWARDS
THE FUTURE

**NEW
FACILITIES**

GROWTH WITHOUT PRECEDENT

In the year 2023 Luis Penalva S.L. begins its activity in the new 5,500 m² facilities equipped with spacious rooms packaging, modern extraction systems and materials that facilitate cleaning, all designed for food industry.

Modern facilities designed to increase the company productive and storage capacities and to be able to respond to the current market requirements.

Luis Penalva, S.L. has also been very conscious on sustainability and a 77 kw solar panel system has been installed.

This great investment guarantees an improvement in productivity that will allow an increase of both national and international business and a sustainable growth of the company.

“We are a reference brand in our sector nationwide and international”
