

Athens, Greece – July 18, 2025 – Select Fish, one of Greece’s foremost leaders in fresh and frozen fish as well as ready-to-eat and ready-to-cook seafood products, is excited to announce our participation at the Anuga Expo 2025. World buyers and industry professionals are invited to visit us at Booth D-079, Hall 4, to discover our diverse, high-quality seafood offerings and meet our expert sales and export team.

Who We Are: Select Fish

Founded in 1995 through a passion for the nutritional benefits and culinary richness of seafood, Select Fish has evolved into a pillar of Greece’s seafood sector. With two (2) fully integrated, state-of-the-art facilities in Greece, we are the Balkans’ largest importer of Atlantic salmon from Norwegian aquaculture farms, processing over 5 million kg of fish annually and employing a team of about 100 people.

Driven by innovation and a commitment to excellence, Select Fish delivers premium quality seafood at competitive prices to a global clientele. Our operations are supported by the highest industry certifications (including IFS Food, Global G.A.P, and ASC), ensuring safety, sustainability, and traceability with every product.

What Makes Select Fish Unique?

Innovation & Vertical Integration: We set benchmarks for industry innovation by managing every link in the seafood supply chain, from import and processing to preservation, packaging, and distribution, within our privately-owned facilities.

Premium Quality: Our core philosophy is commitment to top-tier freshness and flavor, maintained through advanced technology and consistent quality control.

Comprehensive Solutions: We offer tailored solutions and support across product details, packaging, logistics, and application, catering seamlessly to wholesale, retail, and foodservice sectors

Sustainability: Select Fish integrates sustainable practices and supports healthier lifestyles worldwide, striving to deliver value today and for generations to come.

Specializing in Ready-to-Eat and Ready-to-Cook Seafood

At Select Fish, we focus exclusively on premium seafood innovations, offering a comprehensive range of ready-to-eat and ready-to-cook products designed for retail, foodservice, and culinary professionals.

Signature Offerings:

Ready-to-Eat Seafood: Convenient, nutritious, and delicious solutions for every need

Pre-cooked, grill-marked, or breaded fillets of European Sea Bass and Sea Bream

Smoked salmon fillets, seasoned patties, skewers, and bite-sized breaded Salmon snacks

Products are designed for minimal preparation, offering consistent freshness and taste while saving valuable time in busy kitchens and retail operations.

Ready-to-Cook Lines

Unlock simplicity and efficiency with premium ingredients

Mediterranean Sea Bass/ Sea Bream: Cleaned, deboned, and portioned for swift preparation; versatile for a range of cuisines
