### Invitation to a World of Fantasy and Fairy Tales – New Products from Confiserie Heidel

**Osnabrück, 01 February 2026** This year as well, and right on time for ISM, the Osnabrück-based traditional brand Confiserie Heidel invites you to discover its diverse range – with inspiring new products and the ever-popular classics. Heidel is renowned for high-quality chocolate creations in extraordinary packaging, developed in-house from the very first idea. A large part of the production is still lovingly handmade at the Osnabrück site. Also, the chocolate itself is produced in Osnabrück. Thus Heidel will present at ISM the creative results of a full year of inspiration, market insight, and devotion to the product – products in the form of nostalgic Christmas tales, adorable birthday characters, imaginative gnome forests, colourful comic adventures, and much more.

A special preview: next year Heidel will celebrate its 50th anniversary – marking half a century of joyful chocolate stories.
