

Christmas 2025: Papa presents a catalog rich in excellence, blending tradition, innovation, and taste

The new Papa Christmas catalog showcases a renewed selection of sugared almonds, dragées, nougat, chocolate, and macarons, reaffirming the quality that has always distinguished the company. The “Dubai” line introduces modern combinations, such as toasted almonds coated with pistachio cream and dark chocolate, along with gold-decorated macarons filled with pistachio cream.

Among the most original creations, the Candied Citrus Box combines lemon and orange processed with citrus-flavored chocolates, offering a balance of freshness and sweetness. The section dedicated to nougat highlights premium Italian ingredients: certified-supply-chain almonds and hazelnuts are used in the brittle, soft, and chocolate versions, including more indulgent varieties such as salted caramel nougat. Completing the offer are chocolate-covered mini nougats, also available in larger formats.

There are also Christmas-edition macarons in cocoa, pistachio, salted caramel, cinnamon sugar cookies, and gingerbread flavors. Not to be missed is the full line of dark and milk chocolate bars, designed to provide an assortment suitable both for tasting and for gifting.

The Papa Christmas 2025 catalog therefore presents a wide and carefully curated range that blends tradition and innovation with the aim of offering high-quality products for the holiday season.
