

VALIN Powers Global Innovation in Baked and Healthy Snacks

Alpago, Italy – As the healthy snack market surpasses €5 billion in Europe and continues to grow globally, VALIN emerges as a pivotal force in shaping the future of nutritious snacking.

Exhibiting at ISM INGREDIENTS 2026, VALIN showcases its advanced capabilities in producing gluten-free and plant-based snack pellets, essential ingredients for baked crisps, puffed snacks and vegetable-based alternatives.

Leveraging cutting-edge extrusion technology and natural formulations, VALIN enables manufacturers to meet rising consumer demand for low-fat, clean-label products.

Its diverse portfolio supports both taste innovation and functional ingredient integration, helping brands craft hot air expanded snacks that blend traditional bakery techniques with modern wellness trends.

As a strategic partner in responsible sourcing and sustainability, VALIN empowers global snack producers to stay competitive in a market driven by health consciousness, ethical standards and flavor-forward innovation.

- Visit VALIN from 01-04 February 2026 at booth J-038, Hall 10.1, Koelnmesse, Cologne
