

Giant Eagle Supply Redefines Workshop Precision with New Patent-Pending Router Table and Lift System

[February 13, 2026] — Giant Eagle Supply is proud to announce the launch of its high-performance **Router Table**. Designed for maximum stability and professional-grade accuracy, this system introduces a patent-pending adjustment technology that sets a new benchmark for the woodworking industry.

Innovative Engineering for Large-Scale Projects

The foundation of the system is a perfect **extruded aluminum table**, engineered to provide expansive support for even the largest workpieces. To complement this robust surface, the table features a custom fence with built-in **micro-adjust capabilities**, allowing woodworkers to achieve the perfect cutting depth with extreme precision.

Industry-First Router Lift Technology

This release features a revolutionary router lift—the only one on the market equipped with a **fully adjustable center chuck system (patent pending)**. This advancement allows for seamless integration and customization within the workshop environment. Furthermore, the system offers a robust **50–125 mm capacity**, making it adaptable to nearly any workpiece size.

Key Features at a Glance:

- **Premium Surface:** Extruded aluminum table provides superior support for large workpieces.
- **Advanced Lift:** Features the only fully adjustable center chuck system (patent pending).
- **Precision Fencing:** Built-in micro-adjust for flawless cutting depth.
- **High Capacity:** Robust 50–125 mm capacity accommodates various workpiece sizes.

About Giant Eagle Supply

Giant Eagle Supply is dedicated to providing innovative tools that simplify complex woodworking tasks. By focusing on durability and user-centric design, they help craftsmen achieve professional results with ease.
